

2" x 4" boards 12" min above bottom of header  
for standard lift track.  
please see sales rep if High Lift Track

2" x 6" spring pad (Torsion springs only)

Minimum headroom required for Torsion springs:  
9" with low headroom track  
12" with standard track

Please see your Sales rep for standard sizes. Not all doors are available in all sizes/heights.  
6" MINIMUM side room required for installation. Please note this is over DOOR width, not OPENING width.

**Garage door openers:**

7' doors will have a depth of 10'6"  
8' doors will have a depth of 11'6"  
9 & 10' doors will have a depth of 13'6"  
please place plugs accordingly.

**please note:** for a finished look, have your electrician pre-wire your interior wall buttons!  
simple 2-wire doorbell type wire is all that's needed!
